PROFESSIONAL EXPERIENCE

Full-Stack Web Developer Intern

February 2025 - May 2025

Provincial Government of Camarines Norte - Governor's Office

- Contributed and developed a document management system that increased employee workflow efficiency by 70%-80%, reducing manual workload and enabling faster document management and automated report generation in PDF, Excel, and chart formats.
- Responsible for full-stack development, handling both frontend and backend tasks using Node.js, RESTful APIs, React, HTML/JSEX, and CSS.

Full-Stack Developer & IT Consultant

August 2023 - Present

Freelance & Outsourcing

- Collaborated and developed responsive websites and mobile applications for multiple clients across student research, organizations, and small businesses.
- Consulted and successfully deployed a client-focused IoT system (Water Filtration System) at E-Konek / CODExA OS Labs, integrating ESP8266 microcontroller, Firebase, and mobile app interface.
- Enhanced employee workflow at GRACE (Global Resources for Assessment, Curriculum, and Evaluation) by identifying and resolving PASS binary issues in Macro, such as formatting and computation errors.
- Served as a consultant and developed full-stack web, mobile, and IoT systems for multiple schools, delivering 15+ client-based projects recognized at regional, national, and international levels.
- Developed and integrated geomapping, GIS, and location-based features into IoT, web, and mobile applications.

PROJECTS

- HRAssist** - Developed a cross-platform web-app and mobile app Human Resource Management Information System for the LGU of San Vicente, Camarines Norte to streamline HR processes, such as 4 pillars of HR, and manage leaves efficiently using React, JS, HTML, CSS, Firebase
- CNSC Rule-Based Document Prioritization** - Developed a web application for Camarines Norte State College that enhanced the document tracking and prioritization, enhancing workflow across offices, departments, and staff using Laravel Framework PHP, CSS, and MySQL Database.

EDUCATION

Bachelor of Science in Information Technology

August 2021 - June 2025
